Fish and Wildlife Application

Tracking Number: 100487100

Applicant Information

If approved, will the authorization be issued to an Individual or Company/Organization/Government?	Individual
Are you the Individual this application will be issued to?	Yes

APPLICANT CONTACT INFORMATION

Applicant is an Individual or an Organization to whom this authorization Permit/Licence will be issued, if approved.

Name:	Allan Irvine
Phone:	250-777-1518
Daytime Phone:	
Fax:	
Email:	al@newgraphenvironment.com
Date of Birth:	
Mailing Address:	6 Regent Street Nelson BC V1L 2P1 Canada

TECHNICAL INFORMATION

APPLICATIONS

You may submit one or more application(s) Click on the 'Add Application' for each application you would like to add. In order to submit multiple applications together they must be for one applicant and in the same region.

Type

Scientific Fish Collection Permit

SCIENTIFIC FISH COLLECTION PERMIT – ELIGIBILITY

Question	Answer	Warning
Is this application related to a BC Hydro Sustainment Project required for the maintenance and upgrading of existing electricity infrastructure such as replacing aging equipment, improving transmission systems, or reinforcing substations to support long-term energy needs?	No	
Do all applicants and co-applicants meet the eligibility criteria of being 19 years or older?	Yes	
Is this a new application or a renewal of a previous permit to support wind or solar activities?	No	

Application Type:	New application

SCIENTIFIC FISH COLLECTION PERMIT

Please provide us with the following information about the Scientific Fish Sampling:

SCIENTIFIC FISH COLLECTION ACTIVITY

Please provide us with the following information about the Research Activity

What is the activity for the Scientific Fish Collection?	Research
Applicant Date of Birth (DD/MM/YYYY)	Mar 8, 1975

SAMPLING PROGRAM

Please provide us with the following information about the Sampling Program

Will collection activities involve live transport?	No
Will collection activities involve any tagging, marking, or lethal sampling?	No
Will collection activities involve any variances to the listed Permit Conditions?	No
Will collection activities involve any Species at Risk?	No

SAMPLE PERIOD

Please provide us with the following information about the Sampling Period.

Start Date:	Sep 11, 2025
End Date:	Oct 31, 2025
Please select the intended activity:	Research

SAMPLE LOCATION(S)

Please provide us with the following information about the Sampling Location. Water shed codes can be found here.
Please provide UTM coordinates or attach Shape files or KMZ files with marked sampling locations on Step 3 – Document Upload.

Ministry of Environment Region	Waterbody	Watershed Code	UMT Zone	Northing	Easting
Cariboo	Archer Creek	100-596500-82000	10	5894796	573972
Cariboo	Slough Creek	100-596500-90900	10	5882133	590481
Cariboo	Rucheon Creek	100-596500-84300-21000	10	5886032	577020

SAMPLING OBJECTIVES

Please describe fish collection component of the project and / or project area - must include:
•Rationale
•Brief description of project/activities:
•Risks associated with project/activities:
•Mitigation measures clearly describing how those risks are avoided or reduced (do not reference other documents)
•Methodologies
•Was there a review of previous baseline information available on the Fisheries Information Summary System (FISS)?
•Are any variances requested? Please include justification and dates if required.
•Any other biological details, information or reasoning to support your rationale.
NOTE: Providing insufficient detail may result in significant delays in processing or even rejection of your application. You are required to obtain separate permits for additional activities not listed.
Proposed sampling is associated with project documented here
https://newgraphenvironment.com/fish_passage_fraser_2023_reporting/

The work is a multi-year collaboration among multiple groups and is an initiative of the Society for Ecosystem Restoration Northern BC. Fieldwork is being led by Al Irvine, R.P.Bio, of New Graph Environment Ltd., with support from field and office teams throughout the study area. The rationale for sampling is to assess fish presence/absence, species composition and density, abundance, movement, growth, and survival as part of habitat confirmations and effectiveness monitoring for fish passage restoration at barrier culverts. Sampling methodologies will vary depending on site conditions, suspected fish species, habitat type, potential risks to aquatic organisms, and ongoing communications.

Potential impacts of sampling activities and their mitigations include several key considerations. To reduce the risk of high voltage injuries during electrofishing, the minimum effective voltage will be used, fish will not be contacted directly with the anode, and electrofishing will be avoided adjacent to metal culverts. To prevent disruption of spawning, electrofishing will not be conducted in likely

spawning habitats during the highest risk periods. To minimize physical stress on fish, captured individuals will be handled quickly and gently, released promptly, and anesthetized with clove oil when necessary.

SAMPLING TECHNIQUES

Please indicate all the sampling techniques, check all that apply.

Sampling Technique	Code
Dip Netting	DN
Electrofishing	EF
Minnow Trapping	MT
Seining	SN

SPECIES TO BE SAMPLED

Please provide us with the following information about the Species to be sampled, use species codes listed on Appendix B Table 2.

Please do not apply for Federal Salmon Species. For more information on Federal Salmon Species please refer to the Fisheries and Oceans Canada Scientific licenses webpage.

No permits will be issued for SARA listed species or for salmon other than Kokanee. SARA permit application forms webpage. Scientific Fish Collection Appendix A

Is this sampling program targeting specific species?	No

SPECIES INFORMATION

Please identify all target species/potential species encountered. A complete species list can be found here

Common Name	Scientific Name	Code
Rainbow Trout	Oncorhynchus mykiss	RB
Bull Trout	Salvelinus confluentus	BT
Burbot	Lota lota	BB

SCIENTIFIC FISH COLLECTION PERMIT - APPENDIX

Please refer to the following Appendix pertaining to your Fish Collection Permit and its Conditions here.

Name of College of Applied Biology qualified registrant on project:	Allan Irvine

ADDITIONAL PERSONS

Authorized persons qualified to conduct salvage work under this permit (see item 13, Appendix A)
Lucy Schick

PRIVACY DECLARATION

PRIVACY NOTE FOR THE COLLECTION, USE AND DISCLOSURE OF PERSONAL INFORMATION
Personal information is collected by FrontCounter BC under the legal authority of section 26 (c) and 27 (1)(a)(i) of the Freedom of Information and Protection of Privacy Act (the Act).
The collection, use, and disclosure of personal information is subject to the provisions of the Act. The personal information collected by FrontCounter BC will be used to process your enquiry or application(s). It may also be shared when strictly necessary with partner agencies that are also subject to the provisions of the Act. The personal information supplied in the application package may be used for referrals or notifications as required. Personal information may be used by FrontCounter BC for survey purposes.For more information regarding the collection, use, and/or disclosure of your personal information by FrontCounter BC, please contact FrontCounter BC at 1-877-855-3222 or at:

FrontCounter BC Program Director
